

Operating instructions

Design Fountain Water Stone 35-LED

Design Fountain Rock Stone 40-LED

This instruction manual belongs exclusively to this product. It contains important information on commissioning and handling. Please pay attention to this, even if you pass on this product to third parties. Please also observe the instructions for the pump. These contain important safety instructions for operation and installation! Therefore, please archive these operating instructions for future reference.

1. Introduction

Dear customer, thank you for purchasing this product. You have purchased a product which was built according to the current state of the art.

CE It meets the requirements of the applicable European and national directives. Conformity has been proven, the corresponding declarations and documents are deposited with the manufacturer.

In order to maintain this condition and ensure safe operation, you as the user must observe these operating instructions!

2. Safety instructions

Damage caused by not following these operating instructions will invalidate the warranty!
We assume no liability for consequential damage!
We accept no liability for damage to property or personal injury caused by improper handling or failure to observe the safety instructions.
In such cases, all warranty claims are void.

For safety and approval reasons (CE), unauthorized conversion and/or modification of the product is not permitted. Ensure that the product is put into operation properly. Please observe these operating instructions. In commercial facilities, the accident prevention regulations of the Verband der gewerblichen Berufsgenossenschaft für elektrische Anlagen und Betriebsmittel (Association of the German Trade Association for Electrical Systems and Equipment) must be observed. This product is designed for private use only.

3. Intended use

- The decorative fountains can be used indoors and outdoors.
- For outdoor use, the instructions in the manual of the decorative fountain pump must be observed without fail!
- The LED lighting is already pre-installed in the fountain. Only the water hose and the supply line with the pump have to be installed.
- To safely interrupt the delivery, the pump must be disconnected from the power supply.

4. Mounting of the design fountain

1. Unpack all components carefully
2. Connect the water hose and the LED cable to the water pump.
3. For the connection of the water pump with the mains supply, please refer to the instructions for the decorative fountain pump. These are also included in this set.

Note: When operating the fountain, water splashes can get outside. To avoid water damage, do not place the fountain on a water sensitive surface.

5. Winter storage

The well must be wintered in a frost-free place. The pump must be cleaned beforehand. (See instructions for the ornamental fountain pump).

6. Safety instructions:

DANGER for children! Keep children away from swallowable small parts and packaging material. There is danger of suffocation!

WARNING: Danger of tripping! Lay the connection cable so that it does not become a tripping hazard!

Disposal information for electrical appliances:

Dear customer, if you wish to dispose of this item, dispose of it according to the current regulations. Information can be obtained from the local authority.
